## Product Lines Represented

IEC EX and Industrial Enclosures manufactured from Stainless Steel, Fiberglass Reinforced Polyester, Aluminum and Polycarbonate. High Voltage Distribution Boxes. Products include UL, FM, CSA, GOST-R, Cebel, ATEX & CE certifications.

Audible & Visual signaling devices for industrial, marine & hazardous duty environments including both ATEX, IECEx, GOST-R and North American approvals.

IEC Compression Lugs /Terminal Products for terminating all types of IEC metric cables including crimp tools and accessories. DIN and UL listed on certain products.

Ex 'd' Flameproof products including custom control enclosures, Ex 'd' cast boxes, Conduit bodies including unions, seals, reducers, flexible conduit, Control stations, Instrument Housings, and specialty Ex 'd' Emergency lighting equipment. ATEX, GOST-R Certified.

IEC/EN LSHF Instrumentation/Data/Coax, High Temperature & Heat resistant cables including Thermocouple/Process Control Bus cables for IEC applications.

Exothermic & Mechanical Grounding Systems including ground rods, clamps connectors designed to IEC and BS specifications & standards.

Intrinsic Safety Barriers and accessories to IEC and North American Standards including UL, FM, ATEX, GOST-R, DNV for both Class/Division and Zone EX installations.

ANZEx, IECEx Ex certified enclosures, lighting, control equipment for hazardous areas.

IEC Hazardous and Industrial Location Lighting including HID, Fluorescent technology. Products designed to ATEX, GOST-R, IECEx & CE requirements.

IEC EX Certified Motors & Drive Systems certified Zone 1 & 2 to the ATEX Directive including GOST-R approvals

Cable Glands, Connectors and Accessories for cable types including SWA, SWB, STA, EEx d, EEx e fully certified to the ATEX Directive including certificates to GOST-R, CSA, UL and IECEx applications.

X,Y, Z Purge systems for both IEC/ATEX and for North American applications. UL listed & ATEX directive approved for Zone 1 & 2 locations, CE Marked.

Cable Sealing Products including multi cable transits for fire, water and explosion protection built to North American and International Standards including ABS, DNV, ATEX, UL and much more.

IEC MCC's and Custom Distribution & Control Panels including Intelligent Motor Controls, Type tested to IEC/EN60439-1 and the LV Directive.

IEC/North American Fused, Non-Fused switches, fuses, fuseholders and Industrial UPS Systems. UL, IEC & GOST-R certified.

IEC Non-Hazardous Lighting for commercial/industrial applications including high bay, fluorescent and HID street lighting products. IEC & CE compliant.

Cable Tray and Cable Ladder Support Systems including Strut systems, Lighting trunking systems, Equipment Mounting Racks, Cable Cleats and Fixings in GRP, 316SS & HDG Steel. DNV & NEMA rated.

Custom Power Control Building Manufacturer to International standards including NORSOK, IEC, ATEX, ABS & IEE approvals. Custom Air Conditioning Equipment to EX standards.

Plugs & Sockets Systems for NA and IEC applications including portable power distribution units designed to IEC309-1 standards. UL listed for North American applications.
